Groupcall Xpressions

An exciting new service is now available to help make home-school communication easier, more effective and more accessible. **Groupcall Xpressions** is created, supported and maintained by the award-winning school communication company Groupcall Limited.

Xpressions is completely free of charge to you and can be installed on your mobile phone or tablet. It supports both Apple iOS and Android devices. Alternatively, you can visit xpressions.groupcall.com from any internet browser on your computer, laptop or mobile device.

If you have children in different schools within Moray you will be able to view information on multiple children within the same app and same login.

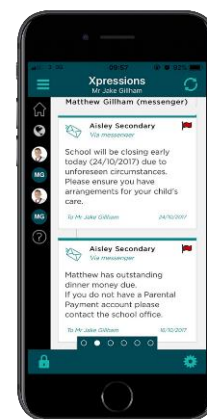

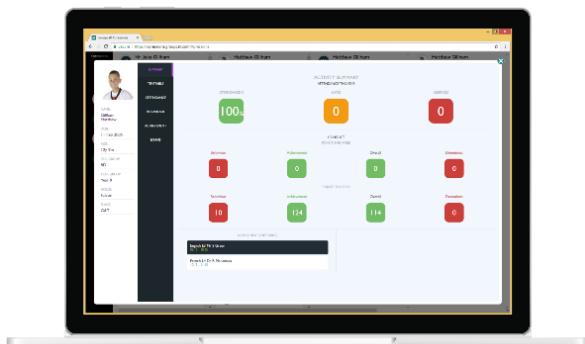

What do I need to do now?

It is vital we have your correct mobile number and email address on our school database to ensure you can use Xpressions as soon as it is available. You will also need these to log into Xpressions. You'll need to make sure you keep these details up to date to maintain access to the service. If you are having trouble logging on please contact the school to make sure they have your correct contact details.

Once set up, you will be able to receive and send free messages to the school.

You can get further help and information at parents.groupcall.com

Please note this replaces the current 'Schools App for Parents'
